

Build Trust, Opportunity & Connection with Your Members

Secure, intelligent & collaborative information management for you and your members

Deepen Your Member Relationships

Simplify the complexity of your members' lives. Empower your clients to securely and efficiently manage all of their most important information while improving communication and collaboration with you, and your organization.

Maximize Your Business Potential

Build trust and key connections across generations with security, simplicity and efficiency through every stage of life from investments and retirement to wealth and estate transfers.

Optimize Your Practice

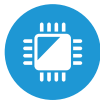

Enhance the efficiency and effectiveness of daily tasks as well as risk management and compliance activities with secure anytime, anywhere access to member information.

Become the digital hub in your members' lives and create unprecedented levels of stickiness & brand loyalty

Improve Security

Empower your members to safely keep their most important documents, assets and information in an encrypted private cloud with bank-grade security.

Offer Intelligence

Enable your members to quickly and easily manage their personal, legal and financial documents with smart-filing technology and intelligent and intuitive organization.

Enhance Collaboration

Make it easy for your members to share documents with family, Trusted Advisors and your firm in a secure, discrete and fiduciary environment.

Boost Retention

Become the digital hub of your members' daily lives; differentiating your brand, increasing daily mind share and improving client loyalty.

Increase Revenue

Launch net new revenue streams, empower seamless intergenerational wealth transfers and eliminate back and forth interactions with members and other professionals to reduce costs.

Maintain Compliance

Better manage risk and compliance with long term audit trails that include document history for all account activities and communications.

"FutureVault has definitely changed the relationship with my clients. There's a lot more transparency, trust, and new opportunities for value-added services and more comprehensive consultation".
